

몽골 해운 교육의 현실적 추진 방향에 관한 연구

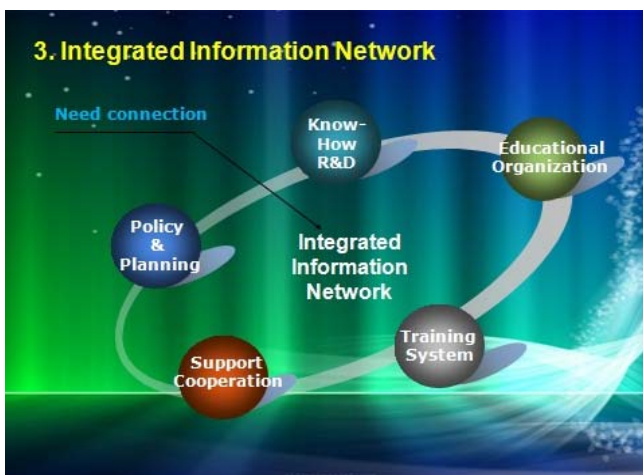

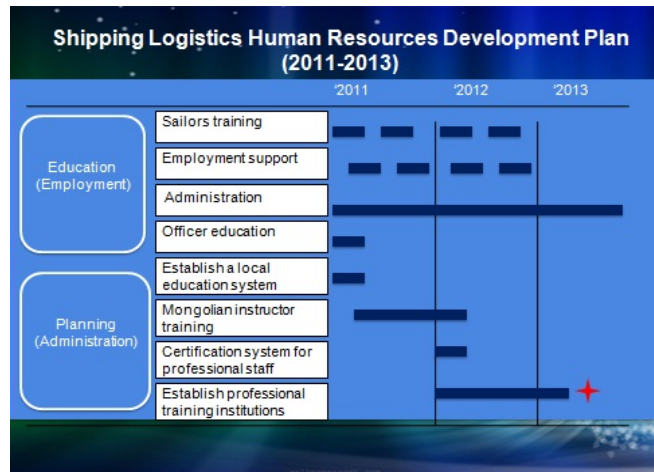

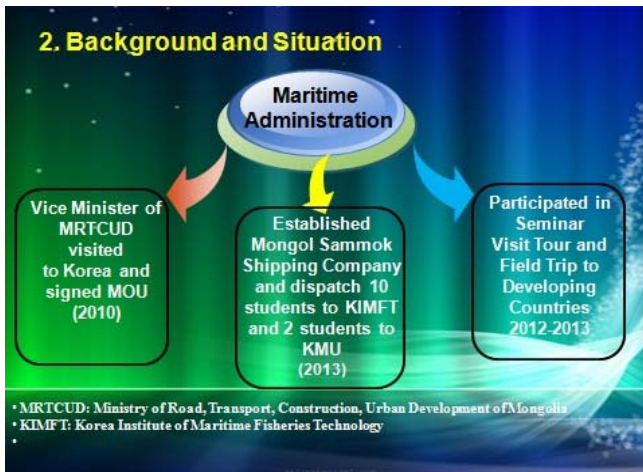

† 투멩자르갈 · 윤대근* · 신호식**

† 목포해양대학교 해상운송학과 대학원생, *목포해양대학교 국제해사수송과학부 교수,
**목포해양대학교 실습선 선장

요약 : 몽골은 중국과 러시아에 의해 바다를 접할 수 없는 내륙국가로서, 지정학적인 한계를 가지고 있어 해운산업의 역할이 매우 약한 나라이다. 하지만 해상운송의 중요성과 내륙 복합운송의 증대로 인하여 몽골에서도 해운의 중요성이 부각되고 있다. 이러한 상황에 중요한 것이 해운 인적 자원 양성이라고 판단된다.

핵심용어 : 해운 교육, 몽골, 현실적, 추진, 방향

Element of Human Resources Infra Maritime Innovation

	Strategic performance evaluation system	Education Training System
Classification	Human Resources Infra	Human Resources Infra
Past	General management system, the system is the lack of team performance	Depends only on the industry, the nature of the training conditions and lack of self-education
Present	Figures measured by team members, team core competencies and performance objectives, establish the framework of the enterprise-wide goals.	Establish and conduct a training program for human resource development
Core Strengths	Quantity and identify the strengths and weaknesses of the process, with the introduction of the scientific objectives and approaches for achieving long-term goals.	Continuous positive maritime experts, an increase in the capacity of both individuals and companies is the driving force behind the development of the company compared to other companies to gain a strong competitive edge.
Effect	Scientific and effective goals and measurement	Stabilization of the organization and improvement on internal customer satisfaction
Future Plans	Presents a model of knowledge management of internal resources efficiently and improve the ability to work voluntarily.	Makes internal growth of the collective knowledge of the industry's best instructors continued to dig.

- ### 4. Conclusion
- No information network and Need connection
 - Lack of awareness of system evaluation
 - In securing the safety and stability of marine transport, the role played Integrated Information Network as the human resource infrastructure is considerable.

Thank You !
