**TITLE : UPDATE OF THE SERVICE CATEGORY IN DRAFT REC.F.MDS**

## 1. Abstract

The purpose of this contribution is to update the service category of draft recommendation F.MDS.

## 2. Discussion

In draft recommendation F.MDS, the service category of the multimedia distribution service is defined in table 1. but in the recommendation I.211, the B-ISDN service is classified and the service class is as follows

-Conversational Services

- Messaging services
- Retrieval services
- Distribution services without user individual presentation control
- distribution services with user individual presentation control

Because the multimedia distribution service is involved in the distribution service, the service class of table 1 of F.MDS should be consistent with the service class of I.211.

### 3. Proposal

To keep the consistency and to avoid the confusion of using “the service class”, we propose to update the table 1 of the draft recommendation F.MDS as follows:

Table 1. Service Categories Applications

Service class	Service Subclass		Specific Services	Possible Applications
Distribution Service without user individual presentation control	Scheduled Continuous Distribution	Open Group Distribution	TV – HDTV Distribution Service	Television Programme
		Closed Group Distribution	Closed User Group Distribution Service	Pay – Per – channel Television(Pay – TV) Programme, Dedicated News Programme
Distribution service with user individual presentation control	On – demand Continuous Distribution	Open/Closed Group Distribution	Monitoring from Multiple Sites Service	Remote Serveillance, Event Multicast
	On – demand Cyclic Distribution	Open/closed group Distribution	Videography Service	Multimedia Programme such as: – news – Advertising: – Education
	Provider – on – demand Distribution	Closed Group Distribution	Video Information Distribution Service	Taperecorded Private video, etc
	Receiver-on demand Distribution	Open/Closed Group Distribution	Video-on-demand – Service	Video programme such as: – Entertainment; – Advertising; – Education; – Business
