

中國電工技術學會(China Electrotechnical Society)주최 2nd IPEMC(International Power Electronics and Motion Control Conference)

Welcoming Reception

Nov. 3 1997

Hua Jia Shon Resort 항주 (中國)

" Speech "

Byon, Sung-Bong
President of KIEE

Ladies and Gentleman !

It is my great pleasure to have a speech this beautiful evening.

First of all, I would like to express the best thanks to our friendly neighbour Chinese friends, by the names of all members of K.I.E.E, especially for your official attendance to our 50th Anniversary Ceremony this July !

Just one year ago, we signed the cooperation agreement at begin to promote our relations between Chinese Electrical Society and K.I.E.E.

But we know that our two countries have many thousands years exchanging in our history. We have some unhappy experiences, but mostly good relations.

We, the Koreans say a words like this " Starting is half ". Yes, we started only one year ago, but we already achieved the first-half, so we have now the second half only.

Let us make our best effort to promote our cooperation more and more !

Thank you very much !
