Estimated Number of Korean Adults with Back Pain and Population-Based Associated Factors of Back Pain : Data from the Fourth Korea National Health and Nutrition Examination Survey

J Korean Neurosurg Soc 46 : 443-450, 2009
10.3340/jkns.2009.46.5.443

In the 2009 edition of the Journal of Korean Neurosurgical Society, we published an article entitled “Estimated Number of Korean Adults with Back Pain and Population-Based Associated Factors of Back Pain : Data from the Fourth Korea National Health and Nutrition Examination Survey” (Volume 46 Pages 443-450), which was written by Hyung-Joon Jhun, M.D.¹ and Jung-Yul Park, M.D.². However, in this article, the first author’s affiliation was mistyped. Thus, we have corrected the first author’s affiliation from Cha Biomedical Center, Kangnam Cha Hospital, CHA University, Seoul to Department of Occupational and Environmental Medicine, College of Medicine, Korea University, Ansan, Korea.
