Korean J Thorac Cardiovasc Surg 2017;50(5):317-5.

There was an error in the article, “Outcomes of extracorporeal membrane oxygenation in children: an 11-year single-center experience in Korea [1].” The indentation in Table 4 needs to be corrected. The corrected Table 4 is as follows:

**Table 4.** The underlying diagnoses and outcomes of extracorporeal membrane oxygenation in pediatric patients

Diagnosis	No. of cases	No. of survivors	Survival (%)
Pediatric respiratory	25	13	52.0
Trauma	2	2	100.0
Interstitial lung disease	4	0	0
Airway obstruction	5	3	60.0
Pneumonia, all-cause	14	8	57.1
Pediatric cardiac	49	20	40.8
CHD-related	26	6	23.1
Preoperative stabilization	2	0	0
Cardiopulmonary bypass weaning failure	15	3	20.0
Postoperative low cardiac output syndrome	9	3	33.3
Non-CHD related	23	13	56.5
Myocarditis	11	6	54.5
Cardiomyopathy	7	3	42.9
Intractable arrhythmia	3	3	100.0
Pulmonary hypertension	2	1	50.0
Pediatric extracorporeal cardiopulmonary resuscitation	14	3	21.4

CHD, congenital heart disease.

We apologize for any inconvenience that it may have caused.
